

YOUR STRATEGIC GUIDE TO ADOPTING AI: vAO SERVICES

Summit's Virtual AI Officer (vAO) helps you identify where AI actually makes sense for your business, compare the right tools, and plan responsibly.

Why Choose a vAO?

Get **executive-level AI strategy** without the overhead of a full-time role.

An **educational, guided approach** that prepares your team for responsible, real-world AI adoption.

About Us

Summit Business Technologies is an IT services and consulting firm that helps organizations strategically adopt technology combining cybersecurity, AI, automation, and business intelligence consulting to improve efficiency, protect data, and drive smarter decision-making.

Our Services Include:

Preparation

We lay the groundwork for **responsible, effective** AI adoption. We **identify business workflows and processes** that are strong candidates for AI, evaluate your **organization's readiness**, and define **data governance** targets.

Consulting

A dedicated consultant who provides **objective recommendations aligned with your business goals**. We develop an **AI roadmap** with phased implementation that works with your budgets.

Ongoing Guidance

Continuous AI strategy refinement as tools and needs evolve. Regular advice and guidance on **AI news, trends, and practical tips tailored for your organization**.
